RAILBOAD OFFICE FOR REST .- A Wellventilated, pleasant room, on the first floor of the Darty Press building, suitable for railroad or insurance office. Apply at the Press Counting-room, Vine-street, opposite the Custom-buses.

SHERIFF'S SALE.—E. T. Carson, Deputy-Sheriff, yesterday sold the following prop-erty, at public sale: To Asa Whitehead, lot No. 5, of Barr, Gorman and Lewis's sub-division, section 13, Millcreek Township, with improvements. The property in Ohio-avenue, valued at \$6,000, sold for \$4,000. Three other pieces were offered, but not sold, for want of bidders.

First on Front-Street—Loss \$8,000.—Loss night, between twolve and one o'clock, a fire broke out in the store kept by John Hazlitt, commission merchant, on Front-street, between Ludlow-street and Broadstreet, between Ludlow-street and Broad-way, which consumed a large quantity of merchandise and a portion of the building. It is supposed to have originated in a de-fective flue, though it is possible that it was the work of an incendiary. When discov-ered, the flames had made considerable progress, and the loss will probably amount to \$8,000, on which there is an insurance, but on account of the loss will probably amount but on account of the lateness of the hour, we were unable to ascertain the amount. The building belongs to the Cassilly estate, and was only partially consumed.

A Cool Proceeding.—An enterprising agent of an intelligence office on Thirdstreet, who is too penurious to advertise in the columns of a newspaper, has several written notices of his business in the Post-office, requesting applicants to address "H. Y.," through the Press Office. The agent certainly has a high appreciation of the value, in advertising, by connecting himself in some way with the Press, but we are sorry to say we can not reciprocate, as we sorry to say we can not reciprocate, as we are certain that the connection will not add materially to the estimation in which this journal is held. We therefore ask, that, henceforth, he will desist, as we do not desire to rob the General Government of the

annual rent of a box in the Postoffice. WATER-WORKS MATTERS.-The Board of Trustees of the Water-works, met yester-day, and allowed claims and accounts amounting to \$3,055 89, of which \$383 57 was to pay wages of hands employed; \$1,231 50 to pay for 16,720 bushels of coal, and \$276 30 for hauling the same.

A number of complaints were made of ex-orbitant water rents, but, upon examining the cases, the Trustees declined to reduce any of them.

The Superintendent was directed to sell the large iron safe on the best terms he can

Pipe was ordered to be laid on Daytonstreet, from Freeman, about 400 feet west. Several street sprinklers made application to have certain privileges secured to them, but the Board thought best not to take any ection on the subject at present. A resolution was adopted directing the Engineer and Superintendent to report the

number of men employed in the several de-partments of the Works, the salaries paid, the time they have been employed, and the nature of the service which they perform. Adjourned.

i Total RECEIPTS. During this time there have been paid nto the various funds \$1,021,854 69, from which deduct the expenditures, and it will be seen that there is remaining in the Treusury \$403,640 01—a very healthy financial condition, which is due to the admirable management of the Financial Committee of

the City Council. THE SIXTH WARD—Its Manufactures—More Protection from Fire Demanded.—The Sixth Ward, bounded by Fifth-street, Central-avenue and the river, is peculiarly adapted, by, its location, to manufacturing purposes, and a large number of capitalists have availed themselves of its advantages, so that, at present, not less than \$6,000,000 of capital is invested in establishments of various kinds. Notwithstanding this, however, that section has been left almost entirely that section has been left almost entirely without protection against fire, in conse-

without protection against fire, in consequence of which many heavy losses have been incurred, as a few minutes may be sufficient to give the flames such a hold upon the combustible material of some of those large furniture and building establishments, that to save them would be impossible.

Night before last Mr. Noble introduced a proposition into the City Council with a view of establishing a steam fire-engine in the ward, but no definite action was taken upon it, and it is uncertain whether a majority of the Council will tayor the measure. To establish the engine, however, would be an obvious act of justice to men who have done much to give this city importance abroad, and who have added largely to its wealth and population, by giving employment to hundreds of worthy mechanics.

Mr. Welley proposed to many the do

Mr. Walker proposed to supply the de-ficiency by stationing some of the old clumsy engines, unfit to be drawn around, in the ward, but as the experiment, to say the least, would be a very doubtful one, it

Mr. Noble will probably renew his proposition in a short time, and press it upon the attention of members, and we hope it may receive a favorable consideration.

AMUSEMENTS.

Pike's Ornaa increase.—The sublime tragedy of Macbata will be presented in fine style this evening at the Opera-house; the Wallers as the bloody Thane and his wife. Mrs. Waller has made an immeense reputation as "Lady Macbeth," and we feel assured she deserves it. Her acting in this is a high parsonation of the truly tragic, and is generally admired by connoissents and amnteurs alike. The occasion is set apart for the benefit of Mrs. Waller.

NATIONAL THEATER .- Miss Annette Inca will represent this evening, the raving half-mad, foolish-fond "Medea," in Legenve's tragedy of that name, for her farewell benefit." She is said to do this in grand style, and doubt'ess she presents many points worthy of high admiration. Dick Turpin will fol-low the tragedy, furnishing a variety that should appeal to all tastes.

SMITH & Nixox's Hall.—The Campbell Minstress guve their first African cutertainment to a large andience last evening at this Hail, and were received with many tokens of approbation. The company is arrexcellent ore, possessing talent of a high order, and should be heard by all relishing music and Ethiopian comicalities. They perform to-night at Smith & Nixon's Hall for the last time, positively, this season, and to-morrow give an entertainment in Covington at Odd-fellows' Hall.

Papers.—Harper's Weekly, the New York Illustrated News, and Frank Leslie's Illus-trated Newspaper, for the present week have been received by G. N. Lewis, No. 28 West Sixth-tract

THE NEW AMERICAN JOURNAL IN LONDON.

A London correspondent says: The first volume of the paper recently established in London, devoted to American interests, has just been completed. Six months ago the new journal was commenced, and, as the editors say, they are in the full tide of successful experiment. At least 30,-000 Americans defile through Europe annually, and the number increases every year; the number, too, of our countrymen who are residents abroad, is quite large, particularly in England; and there appears no reason why a good American paper should not flourish here, as well as the Albien in New York, or the Courrier des Etats Unis. The London American is a weekly, and is a very passable paper, with its chit-chat of occurrences on the other side of the water, though doubtless its style admits of elevation. But we may hope that with increasing age and resources it may discard much that seems puerile in its columns, when we consider that its visits are not so frequent as to harass the editors with want of sterling copy, and that its price is nearly equal to that of the best journals of the British press.

OBTHORPIC ANECDOTS OF AN ADVOCATS -The witty Scotch advocate, Harry Erakine, on one occasion pleading in London before the House of Lords had occasion to apeak of certain curstors, and pronounced the word as in Scotland, with the accent on the first syllable, carators. One of the English indges could not stand this, and cried out, "We are in the habit of saying curator in this country, Mr. Erskine, following the snalogy of the Latin language, in which, as analogy of the Latin language, in which, as you are sware, the penultimate syllable is long." "I thank your lordship very much." was Erskine's reply. "We are weak enough in Scotland to think that in pronouncing the word curator, we follow the analogy of the English Isnguage. But I need scarcely say that I bow with pleasure to the opinion of so learned a Senator and so great an orator as your lordship."

as your lordship." QUEER WILL OF AN ECCENTRIC EARL.—The will of the Earl of Pembroke, who lived in will of the Earl of Pembroke, who lived in the days of the Commonwealth, after a good many profane jests, proceeds thus: Item—I give all my deer to the Earl of Salishury, who I know will preserve them, because he denied the King a buck out of one of his own parks. Item—I give nothing to Lord Say, because I know he will bestow it on the poor. Item—To Tom May I give five shillings; I intended him more; but, whoever has seen his History of the Parliament, thinks five shillings too much. Mr. Hawkins, of Florida, said: "Last Tuesday I begged to be excused from voting; for similar reasons I ask to be excused from for similar reasons I ask to be excused from serving on this Committee. I have consulted with able members as to whether it is voluntary or not for a member appointed on a committee to serve, and have been informed that he is compelled by the Rules of the House to serve unless excused, and that if he does not serve he subjects himself to something like rebuke or reprimand on the part of the House. "Now, as long as I am a member of this

body, I am anxious to respect all its rules, and am unwilling to draw upon myself re-buke or reprimand; I therefore ask the buke or reprimant; I therefore ask the House to excuse me from serving on this Committee. If I am compelled to serve, I will be a very unimportant, not an efficient member. I know I can not act with all the Committee. As to the idea of getting up a Committee with a unanimity of purpose and in a Unior-aving manner, I have been opposed to any thing of the kind in the past, and am now, believing that the time for compromise has passed forever."

Mr. John Cochrane, of New York, said: "He had heard, with a great deal of regret, his friend ask to be excused from serving on the Committee. It has been well said here today, in the Chaplaiu's prayer, that the gray shadow of the dark wing of dissolution has been extended over our flouse and country, and so dark is the gloom that we can scarcely discern one gleam of light to enable us to transact the ordinary business of legislation.

"Men's minds have been devoted for weeks."

"Men's minds have been devoted for weeks past to the great and absorbing topic of con-troversy, which enlists all thoughts, and de-mands of every individual his best exertions and his purest emotions and wisdom. It is of importance to this issue that the Repub-lic should command the efforts and exertions of all its citizens. I believe now, in the midst of this crisis, with the perils impending over the country, that there is no reason why this House, representing the patriotism and wisdom of the country, should excuse the gentleman from Florida. I believe that from all parts of his State, where the people are looking with solicitude on passing events and with anxious eyes, if the voice of his constituents could be heard, it would be in tones beseeching and appealing to their Representative to stand forward in this issue and stand the brunt of the controversy. He did not believe, with the gentleman, it was important to the wolfare of the country that there should be a unanimous report on the subject referred to the committee. However, God grant that it may be. [Applause in the galleries, accompanied by cries of 'Order on the floor'] God grant that it may be stamped with the unanimity which patriotism demands.

Mr. Morris, of Illinois, appealed to Mr. Cochrane to refrain from surther disension of the question.
